

March 3, 2009

Sonoma County Board of Supervisors  
575 Administration Drive, Room 102A  
Santa Rosa, CA 95403

Dear Chairman Kelley and Members of the Board:

On March 3, 2009, the City Council voted to encourage the Board of Supervisors to seriously consider the issues raised by the City of Petaluma in your decision concerning the Dutra Asphalt Plant. The proposed plant location is within the City of Petaluma's urban growth boundary and is opposite one of their major parks.

For the County and cities to continue to work well together, it is important that the impacts related to County development upon a city, particularly when it is within a community's urban growth boundary, be carefully and thoughtfully considered.

Thank you for your consideration of Petaluma's concerns.

Sincerely,

SUSAN GORIN  
Mayor
